

Access management requires cooperation

Managing access on and off U.S. 20/26 will require cooperation between local governments and ITD. While ITD can regulate access on and off the roadway, each community should make the access management plan part of its comprehensive plan. Local communities also will need to develop local street networks parallel to U.S. 20/26.

To begin this effort, the study team established a Corridor Preservation Committee (CPC) of local government officials and planners. CPC members provide feedback and recommendations on the access management plan.

CPC Members

Nichoel Baird-Spencer, City of Eagle

Casey Bequeath, Canyon Highway District

Mary Berent, City of Middleton

Kevin Bittner, Valley Regional Transit

Vern Brewer, City of Middleton Engineer

Tom Dale, Mayor of Nampa
